

Travel Speed 3.2 / 4.5km/H Komatsu Construction Excavator For Heavy Duty Projects

Our Product Introduction

more products please visit us on used-excavatormachine.com

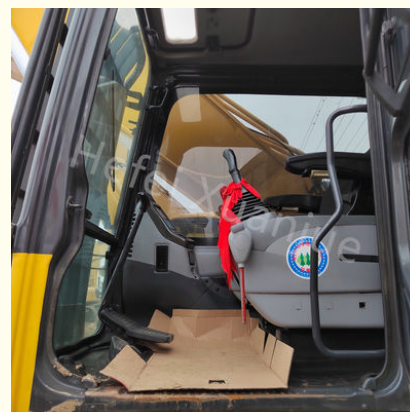

Basic Information

- Place of Origin: Japan
- Brand Name: Komatsu
- Model Number: PC360-7
- Minimum Order Quantity: 1 set
- Price: 16800 USD - 39800 USD
- Packaging Details: Bulk or Container
- Delivery Time: 5-8 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100 units per year

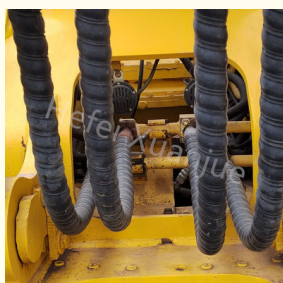

Product Specification

- Capacity: 1.6m³
- Fuel Tank: 605
- Max Digging Hight: 10210mm
- Model: PC360
- Engine Model: SAA6D114E
- Working Weight: 33000kg
- Overall Size: 11.14×3.19×3.28m
- Rated Power: 180KW
- Highlight: PC360 Used Komatsu Excavator,
Heavy Duty Used Komatsu Construction
Excavator
, Komatsu Construction Excavator 180KW

Product Description

Product Description:

Product Overview: Used Komatsu Excavator

Komatsu is a leading manufacturer of heavy equipment and machinery, known for its high-quality and reliable products. The Komatsu Digging Excavator series is a popular choice among construction companies and contractors around the world, offering exceptional performance and durability.

The Used Komatsu Excavator is a cost-effective solution for those in need of a heavy-duty excavator. This second hand excavator is a great option for construction projects that require a powerful machine at a lower cost.

Product Specifications

Capacity: 1.6m³

Model: PC360

Max Digging Depth: 7180mm

Max Digging Height: 10210mm

Working Weight: 33000kg

The Komatsu PC360 model is a hydraulic excavator designed for heavy-duty digging and lifting tasks. With a capacity of 1.6m³, it is suitable for a wide range of construction projects, from building foundations to road construction.

With a maximum digging depth of 7180mm and a maximum digging height of 10210mm, this excavator is capable of tackling even the most challenging excavation tasks. Its working weight of 33000kg ensures stability and balance during operation, making it a safe and reliable choice for any job site.

Features and Benefits

The Used Komatsu Excavator offers a range of features and benefits that make it a top choice for construction companies and contractors:

Reliable and durable: Komatsu is known for its high-quality and long-lasting products. This excavator is no exception, built with sturdy materials and advanced technology to ensure its durability.

Efficient performance: With its powerful engine and advanced hydraulic system, the Komatsu PC360 model offers efficient performance, saving time and increasing productivity on the job site.

Easy maintenance: This excavator is designed for easy maintenance, with easily accessible parts and a user-friendly interface. This helps to reduce downtime and keep the machine running smoothly.

Versatile: The Komatsu PC360 model can be equipped with a variety of attachments, making it suitable for a wide range of tasks such as digging, loading, and lifting.

Cost-effective: As a used excavator, the Komatsu PC360 offers a more affordable option without compromising on quality and performance. This makes it a cost-effective solution for construction projects with budget constraints.

Overall, the Used Komatsu Excavator is a reliable, efficient, and versatile machine that can handle any heavy-duty excavation task. Its high-quality construction and advanced features make it a valuable addition to any construction project.

Technical Parameters:

Product Attribute	Value
Product Name	Used Komatsu Excavator
Model	PC360
Engine Model	SAA6D114E
Max Digging Height	10210mm
Rated Power	180KW
Max Digging Depth	7180mm
Working Weight	33000kg
Overall Size	11.14×3.19×3.28m
Travel Speed	3.2/4.5km/h
Capacity	1.6m ³
Fuel Tank	605L

Applications:

Used Komatsu Excavator

Komatsu is a well-known brand in the construction industry, and their excavators are highly sought after for their performance, durability, and reliability. The Komatsu PC360-7 model is one of their popular models, and it has been used in various construction projects all over the world.

As a Komatsu construction excavator, the PC360-7 is designed to handle heavy-duty excavation work. It is equipped with a powerful engine and hydraulic system, making it suitable for various digging, loading, and lifting tasks. With its outstanding performance, this excavator has become a staple in the construction industry.

One of the most common applications of the Komatsu PC360-7 is in large-scale construction projects such as building roads, bridges, and high-rise buildings. Its high capacity of 1.6m³ allows it to handle large amounts of soil and debris, making it an efficient choice for projects that require a significant amount of excavation work.

Another common use for this excavator is in mining operations. The PC360-7's powerful engine and hydraulic system make it capable of handling heavy loads and tough terrains. It can easily dig through rocks and other hard surfaces, making it a valuable asset in the mining industry.

The Komatsu PC360-7 is also a popular choice for forestry and agricultural work. Its versatility allows it to be used for clearing land, digging irrigation channels, and other tasks related to farming and forestry. With its reliable performance and fuel efficiency, it has become a preferred choice among farmers and forestry workers.

For construction companies and contractors looking for a reliable and cost-effective digging excavator, the Komatsu PC360-7 is an excellent choice. It is available for sale in many countries, including Japan, where it is manufactured. Its fuel tank capacity of 605 liters and working weight of 33000kg make it suitable for long hours of work without the need for frequent refueling or maintenance.

The versatility of the Komatsu PC360-7 is further enhanced by its maximum digging height of 10210mm and a travel speed of 3.2/4.5km/h. This allows it to reach and work in tight spaces, making it suitable for various construction and excavation projects.

In conclusion, the used Komatsu excavator, specifically the PC360-7 model, is a valuable asset in the construction industry. Its reliable performance, durability, and versatility make it suitable for various applications, including large-scale construction projects, mining operations, and forestry and agricultural work. If you are in need of a reliable and high-performing digging excavator, consider the Komatsu PC360-7 for your next project.

F & Q:

Xuanjue Serve For You, Best Quality And Lowest Price

Q1. What payment method?

Payment is negotiable

Q2. Will our company provide any service to the machine?

Yes! Before we deliver the machine, we will test, check, service, maintenance and clean it the machine.

Q3. What's the MOQ ?

MOQ is 1set. FOB or others can be negotiated.

Q4. What's the payment terms?

FOB or others can be negotiated.

Q5. Who pays the freight?

This is determined based on the payment method. We can either find a freight forwarder or the customer can designate a freight forwarder.

If you have any questions, you can call and send an email at any time and leave a message. We will answer you as soon as possible after seeing it.
